Software Engineering Student – Co-op Candidate

Results-oriented Software Engineering Technology student in the Advanced Diploma program with applied academic project experience in programming, web development, databases, and testing. Demonstrated ability to apply object-oriented programming concepts. Detail-oriented problem solver with strong analytical skills and a strong interest in securing a co-op position.

Technical Skills

Programming: JavaScript, Python, C#, HTML, CSS

Databases: SQL, MySQL

Operating Systems: Windows, Linux (basic)

Cybersecurity: Network security fundamentals, threats & vulnerabilities

Development Tools: Visual Studio Code, Git (basic), VirtualBox

Education

Software Engineering Technology – Advanced Diploma

Centennial College, Toronto, ON | 2025 – Present

Key Courses: Java Programming | C# Programming | Client-Side Web Development | Database Concepts (SQL) | Software Requirements Engineering | Web Interface Design

Select Academic Projects

Academic Programming Projects – JavaScript, Python, C#

- Developed small-scale applications and scripts to meet functional requirements
- Implemented logic, input validation, and basic user interaction
- Debugged and tested code to ensure accuracy and reliability

Web Development Projects – Exotic car rental app

- Designed basic responsive web app with structured layouts and styling

- Added interactivity using JavaScript for user-driven functionality

Database Labs – bike retail

- Created and executed SQL queries including SELECT, INSERT, UPDATE, and JOIN
- Worked with relational data and applied database design concepts

Certifications

- Introduction to Cybersecurity – Cisco Networking Academy
- Introduction to IT – Cisco Networking Academy
- IT Support Fundamentals – Coursera
- Programming for Everybody (Python) – Coursera
- WHMIS Training Certification – YOW Canada

Work Experience

Technician (Part-Time)

Mr. Lube, Toronto, ON

- Performed oil changes and basic vehicle maintenance in a fast-paced environment
- Followed workplace safety procedures and quality standards
- Assisted customers and worked collaboratively with team members
